LOCAL NON-PROFIT CEO SALARIES – UPDATED

“The Cincinnati Enquirer” and “The Cincinnati Business Courier” regularly report the annual compensation of local public and private company CEOs, government officials and employees of area educational institutions. Missing from these reports has been the compensation of the CEOs of area non-profit organizations. This information seems as worthy of review as that previously reported for others and may be of general interest as many of these organizations receive public funding either through taxation or charitable contributions. Following are the compensation reports of thirty-eight (38) CEOs of local non-profits which I was able to identify from their most recent IRS Form 990 filings as listed on the following website:

<http://foundationcenter.org/find-funding/990-finder>

NOTE: The previous entry showed Kimber Fender as receiving compensation from the Public Library, Cincinnati & Hamilton County "Foundation". In fact she receives compensation only from the Library as their Director. She receives no compensation from the Foundation. The 990 IRS forms require showing compensation for non-profit executives from all sources. I regret the error.
